Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The abstract is objected to for exceeding 150 words.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-24 rejected under 35 U.S.C. 102(e) as being clearly anticipated by U. S. Patent No. 6,515,656 B1 (Wittenburg et al.), herein referred to as Wittenburg.

Referring to claims 1, 9, 17 and 24, Wittenburg discloses a method for navigation between pages within a series of pages (column 1, lines 25-30). Wittenburg discloses receiving a document, wherein the document comprises a current page within a series of pages (column 9, lines 60-63). Wittenburg discloses identifying a series link in the current page, wherein the

Art Unit: 2173

series link references a next or previous page within the series of pages (reference number 66, Figure 6). Wittenburg discloses associating a series link control with the series link (column 8, lines 1-7).

Referring to claims 2, 10 and 18, Wittenburg discloses searching at least one link in the document for a keyword (column 10, lines 20-24).

Referring to claims 3 and 11, Wittenburg discloses searching at least one link comprises searching at least one of link text, graphic filename, alt text, and uniform resource locator (column 5, lines 3-8).

Referring to claims 4, 12 and 19, Wittenburg discloses identifying a series link comprises searching a uniform resource locator of at least one link for an ascending or descending number with respect to the uniform resource locator of the document (column 4, lines 60-63 and Figure 2A), wherein the presentation links represent the series links.

Referring to claims 5, 13 and 20, Wittenburg discloses identifying a series link comprises searching a uniform resource locator of at least one link for an alphabetic sequence with respect to the uniform resource locator of the document (column 4, lines 60-63 and Figure 2A), wherein the presentation links represent the series links.

Referring to claims 6, 14 and 21, Wittenburg discloses series link control comprises at least one of a button, a menu item, and a keyboard shortcut (column 8, lines 1-10).

Referring to claims 7, 15 and 22, Wittenburg discloses the series link control comprises a mouse pointer (column 8, lines 38-43).

Referring to claims 8, 16 and 23, Wittenburg discloses associating the series link control with the series link comprises automatically placing the mouse pointer over the series link (column 15, lines 37-43).

Conclusion

3. The prior art made of record on form PTO-892 and not relied upon is considered pertinent to applicant's disclosure. Applicant is required under 37 C.F.R. § 1.111(c) to consider these references fully when responding to this action. The documents cited therein teach the method for navigating between pages.

Responses to this action should be mailed to: Commissioner of Patents and Trademarks, Washington D.C. 20231. If applicant desires to fax a response, central FAX number (703) 872-9306 may be used. NOTE: A Request for Continuation (Rule 60 or 62) cannot be faxed.

Please label "PROPOSED" or "DRAFT" for informal facsimile communications. For after final responses, please label "AFTER FINAL" or "EXPEDITED PROCEDURE" on the document. Hand-delivered responses should be brought to Crystal Park II, 2121 Crystal Drive, Arlington, VA., Sixth Floor (Receptionist).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Namitha Pillai whose telephone number is (703) 305-7691. The examiner can normally be reached on 8:30 AM - 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Cabeca can be reached on (703) 308-3116.

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that

Art Unit: 2173

sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-3800.
